

## Schindler 6000 (EU)

Unique, powerful and efficient

With a  
Schindler  
6000,

the sky's  
the limit

With the latest technologies, high-end finishes, larger capacities and flexibility for custom design options – **Schindler 6000 delivers a first-class ride.** Our Swiss-engineered materials and components have been developed to deliver superior performance and energy efficiency. **The Schindler 6000 supports a greener future every floor of the way.**

# Schindler 6000

## Unique, powerful and efficient

Schindler 6000 combines high-rise performance with maximum flexibility – for any rise up to 150 meters, speed up to 3.0 m/s, and groups up to eight cars. This flexibility also extends to the design, dimensions, configurations, and application range – even addressing the needs of demanding public transit, mixed-use and commercial projects. This premium product offers high-end and robust design solutions to meet the needs of the most ambitious projects around the world.

Schindler 6000 integrates the latest technology, a flexible, durable structure, and the highest quality materials to deliver faster handling times for higher passenger volumes – all with optimum ride quality and greater reliability.

### Key figures

<b>Capacity</b>	630 - 2600 kg
<b>Travel height</b>	Up to 150 m
<b>Stops</b>	Max 50 stops, with a maximum of 80 openings
<b>Speed</b>	1.0 - 3.0 m/s
<b>Machine room</b>	Machine-room, mini-machine room or machine-room-less
<b>Drive system</b>	frequency controlled, eco-friendly regenerative drive technology
<b>Group size</b>	Up to 8 cars, unlimited with Schindler PORT technology
<b>Entrances</b>	One- or two-sided
<b>Energy efficiency classification</b>	Class A, according to ISO 25745-2*

\*The classification always refers to a specific customer configuration. Usage pattern, load capacity, customer specific options and site conditions influence the final rating.

### First-class ride experience

Superior ride quality and performance. The Schindler 6000 is built around Swiss precision-engineered components of the highest quality.

### Future ready

Elevators designed today to interface with next-generation technologies.

### Efficiency and ecology

Schindler 6000 is equipped as standard with regenerative drive technology to reduce travel energy use by up to 30% (compared to conventional technology).

### Full design freedom

Maximum creativity to achieve the ambiance that best suits your building.

# Elevating sustainability

## Excellent ecological performance

We're committed to improving the environmental impact of our products and services continuously, across their entire life cycle. The Schindler 6000 passenger elevator is a fully pre-engineered product whose parts are perfectly adjusted, saving both space and energy.

### Class A energy-efficiency rating

Improving energy efficiency is essential in order to reduce the environmental impact of elevators and the buildings they serve. Regenerative drive, LED lighting and stand-by mode while parked, are standard eco-friendly features in all Schindler 6000 elevators, aiming to achieve the highest energy-efficiency rating class A, according to ISO 25745-2\*.

### Environmental Product Declarations (EPD)

To provide an insight into the ecological performance of our elevators throughout their life, we provide Environmental Product Declarations (EPD). We've registered EPDs at the "International EPD® System" for all major elevator product lines. This is an important step in the assessment of the environmental performance of our products and underlines our continuous efforts toward sustainable solutions.

Energy-efficiency rating  
class A, according to  
ISO 25745-2\*

\*The classification always refers to a specific customer configuration.  
Usage pattern, load capacity, customer specific options and site  
conditions influence the final rating.

# Efficiency and ecology

## Architecturally and environmentally-friendly

Our Schindler 6000 is designed to combine dimensions, technologies, and options flexibly to blend into and complement your building. Make your building more efficient and optimize space through excellent shaft utilization with our scalable car configurations.

### 1 Flexible layout solutions

- The Schindler 6000 offers flexible configurations depending on your needs. Select from a space-saving machine-room-less (MRL) design, a mini-machine-room, or machine-room option
- The flexible positioning of the counterweight provides more options for perfect space utilization, maximized rentable space and lower building costs

### 2 Energy-efficient machine

- Lubrication-free, gearless machine supports a smooth ride quality
- Permanent magnet technology offers higher energy efficiency
- Stable start without high peak current, quickly reaches a low energy consumption level

### 3 Regenerative inverter as standard

- Minimum heat dissipation due to energy recuperation. This minimizes energy consumption and reduces the cooling requirement in the machine room by up to 50%
- Return of regenerated energy to mains power during overhauling mode
- Minimal reactive power thanks to the use of a Power Factor 1 converter

### 4 Future-ready controller

- Reduced stand-by power improves energy efficiency
- Halogen-free cabling and wiring, available as an option
- Precision stopping accuracy for easy access
- Digitally-enabled for remote maintenance and commissioning to meet the highest quality standards

### 5 Modular, scalable system

- Scalable car sizing in any direction, in 50 mm increments
- Car heights up to 3200 mm, scalable in 100mm increments
- Doors can be sized and positioned with millimeter accuracy
- The door width is adjustable in 100 mm increments from 800 to 1800 mm and door height up to 3000 mm, with a choice of telescopic (T2) or center-opening doors (C2, C4) and single or double (through-loading)

### 6 Hoistway and suspension technology

- STM technology enables a smaller machine compared to conventional steel rope applications
- Compared to steel ropes, the STM is oil-free and does not require regular lubrication
- Roller guide shoes, as an option, improve the ride quality and the efficiency of the elevator, especially while traveling at higher speeds

## The sound of moderate rainfall

Thanks to our high-quality technology and installation methodologies, Schindler elevators generate minimal noise. Most of the noise created by our elevators does not exceed 50 – 60 dB (A).\*

\*For the evaluation methodology, we comply with ISO 18738 standards. However, many factors influence the amount of noise and vibration generated by an elevator. See our Ride Quality brochure to learn more.

## Full design freedom –

With the most luxurious finishing options, the Schindler 6000 offers high-end design for even the most prestigious and innovative projects. Still looking for the perfect match? A bare car enables you to **bring your vision to life – design without compromise.**

**Navona**  
Functional and durable

**Times Square**  
Modern and versatile

## Four design lines Infinite possibilities

Create the look and feel you like. Combine colors, materials, lighting, mirrors, handrails, and fixtures to achieve the ambiance that fits your building. Choose from one of our interior design lines or design an individual car that fits your needs.

**Park Avenue**

Sophisticated and elegant

**Sunset Boulevard**

Inspiring and bold

# Navona

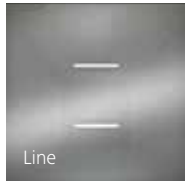

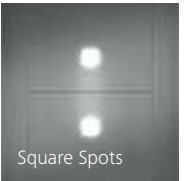

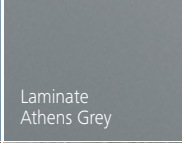

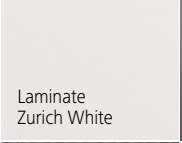

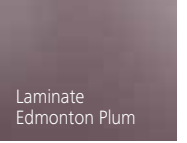

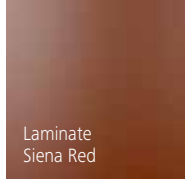

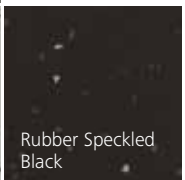

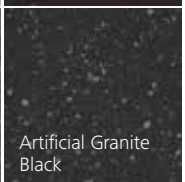

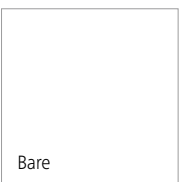

## Functional and durable

Clarity and comfort in your car with this robust design line. Fresh colors, durable accessories, and the option of several different floors make Navona an excellent choice for residential applications. Elegant stainless steel options are also available for rear and side walls.

### Navona

Lighting: Round spots  
Ceiling: Stainless Steel Lucerne Brushed

# Mirrors

## Ensuring optimal appearance

Mirrors heighten the sense of space, depth, and comfort in elevators – and provide a vital service for passengers. Your elevator can be fitted with a full-height or half-height safety-glass mirror on the side or rear wall of the car.

### Side Wall

Full height last panel  
left and/or right

### Rear Wall

Half height  
full width

Half height  
centered

Full height  
middle panel

Full height  
left or right  
panel

### Park Avenue

Back Painted Glass, Shanghai Red  
Full height left and right panel

# Glass

## Expanding a small space

Glass walls offer the illusion of space to improve the comfort of passengers. They also leverage natural lighting, enhance security and offer a visually engaging experience by bringing the outside in. Robust safety glass is available for the walls and doors of your elevator.

**Glass rear wall**

**Glass side walls**

**Glass door**

**Partial side walls**

**Partial side walls**

\*Glass options can be combined to achieve a distinctive look

# Handrails

## A wide choice of shapes and finishes

Handrails convey a feeling of security. Schindler stainless steel handrails are designed to blend with car interiors, shapes and textures, and can be mounted to the side and rear walls. Available in curved, straight, straight with curved ends, and revolving layouts.

Straight with curved ends

Curved

### Customize your handrails

Handrails convey a feeling of security. Our handrails are designed to blend with car interiors, shapes and textures.

The handrails can be mounted in different combinations of side and rear walls, either only one handrail piece on the rear or side walls, two handrail pieces on the side walls or handrails on three walls. They can be connected straight or revolving.

Choose the handrail shape you prefer:

Straight, straight with curved ends, or curved

flush mounting

# Fixtures

## Linea 300

An upmarket user interface to enhance your elevator's looks, with an intuitive, efficient design. The display is in black glass, with buttons positioned on elegant black stainless steel, or white glass display on typical stainless steel color finishing.

**Note:** Premium Fixture offered full height with flush mounting

# Schindler PORT Technology

## Best-in-class traffic management

Optimize the way people move around your building. Improve efficiency, reduce energy consumption, and create more satisfying experiences with Schindler PORT – a holistic solution to building transit management.

Schindler PORT provides a wide range of destination control and access terminals for visitor management, parking, doors, offices and residences. Combine terminals to produce an aesthetic and functional solution for any building.

### Personalized experiences

Customize user journeys based on individual needs and access rights. User-friendly, high-resolution interfaces and touchless operations enhance the experience for passengers.

### Highly efficient people flow

Especially suited to large elevator groups or straight-line configurations in heavy-traffic commercial buildings, Schindler PORT can increase handling capacity by up to 25% and reduce waiting times by up to 20%.

### Secure access

Pre-program and control elevator, floor, and room access rights for tenants and visitors from a central location. Lobby speed gates take identification and access control to new heights of efficiency.

# Schindler PORT

## Best-in-class traffic management

### Schindler PORT

All Schindler 6000 elevators are fully enabled for Schindler PORT Technology, with all the advantages of reduced travel time in elevators, higher passenger traffic capacity, and the potential for full building security and personalized access.

Schindler PORT technology – our destination dispatch system – can be installed in place of conventional fixtures on each landing to optimize the performance of an elevator group.

# Installation excellence

## Working with you every step of the way

### Transparent fulfillment process

For more than a century, we've have focused on supporting our customers across all stages of a project. From design and installation, through to service and modernization, our professionals are there for you, at all times. We partner with you to find the best mobility solution for your facility.

We will consult with you prior to the offer and throughout the manufacturing and installation process to address any unforeseen challenges. A detailed inspection will be performed before we hand over the elevator to verify that the unit meets our high quality standards.

Our aim is to ensure the Schindler 6000 delivered and installed, perfectly fits your needs.

### A new era of service for elevators

With a new Schindler 6000, your equipment becomes easier to service and troubleshoot thanks to the latest digital technologies. And with more than 40,000 experts around the world, we strive to ensure every Schindler customer enjoys industry-leading uptime with minimal disruption.
